

BEWDLEY  
DENTAL

*Dental services for all your needs*

*Say it with  
a smile*

## About Us

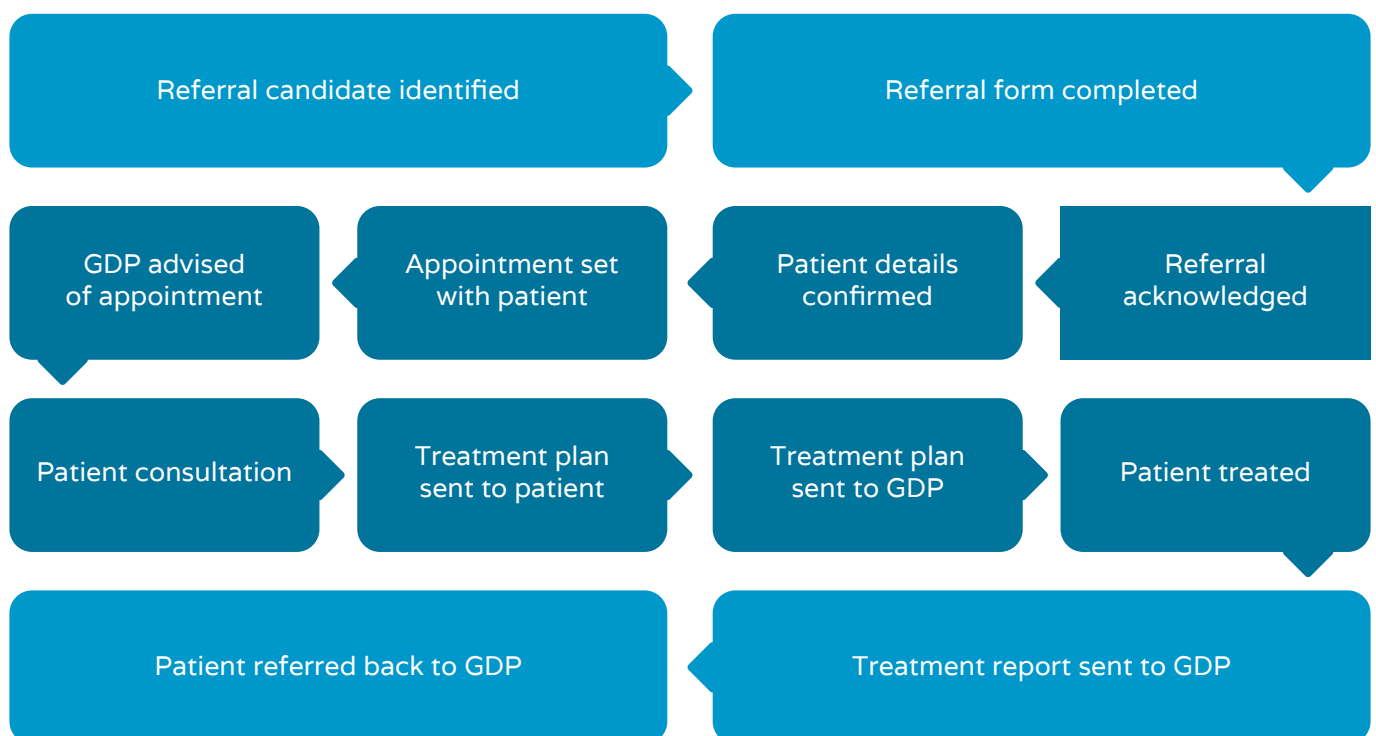

Bewdley Dental Practice has been at the heart of the community for over 50 years, located in a quaint river-side town, we have built up a wonderful reputation focused around quality, trust and patient care.

We value each referral we receive and take pride in growing trusting relationships with our fellow clinicians. Once your patient has completed treatment with us, you will receive a letter from us informing you that your patient has been discharged from our care and back into yours.

We understand visiting the dentist can be a daunting experience for many and we pride ourselves on creating a relaxed, friendly atmosphere to help patients feel at ease, you can rest assured that your patients will receive the highest level of care.

### Why choose us?

- A passionate, experienced and dedicated team
- A warm welcome with a professional approach
- We use the latest technology and concepts within dentistry
- Provide your patient with a high standard of care and support

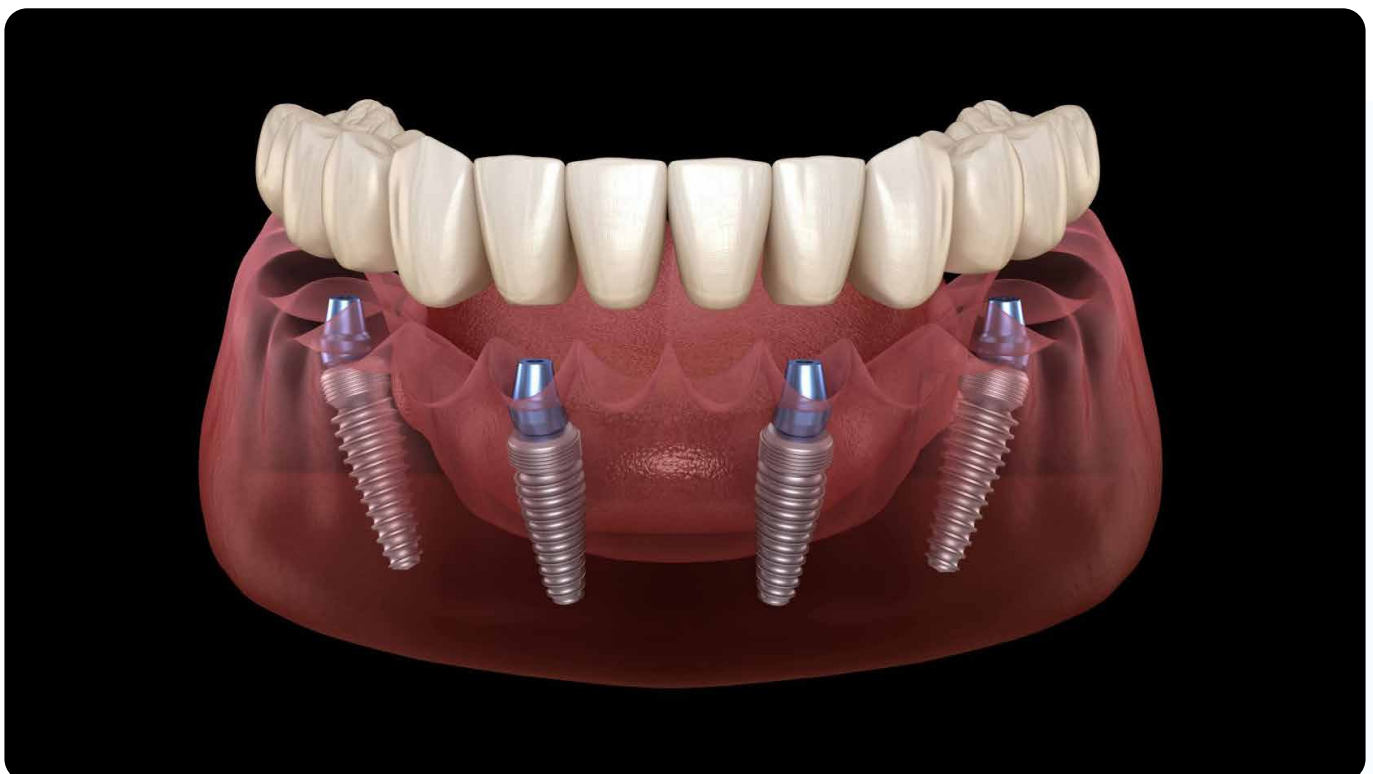

## Dental Implants

Our principal dentist Dr Jagprit Hear has a passion for restoring patients confidence in their smile. He is a dental implant tutor at Dentale Training, you can be confident whether it's a simple single implant case or a more complex full arch your patient will be in excellent care.

We will provide your patient with a seamless treatment journey, there's no need for your patients to attend anywhere else for x-rays to be taken as we have our own CBCT/OPG machine.

We understand that Implant treatment can seem intimidating, however, your patient will receive a dedicated treatment coordinator to help and provide support to your patient throughout their treatment journey with us.

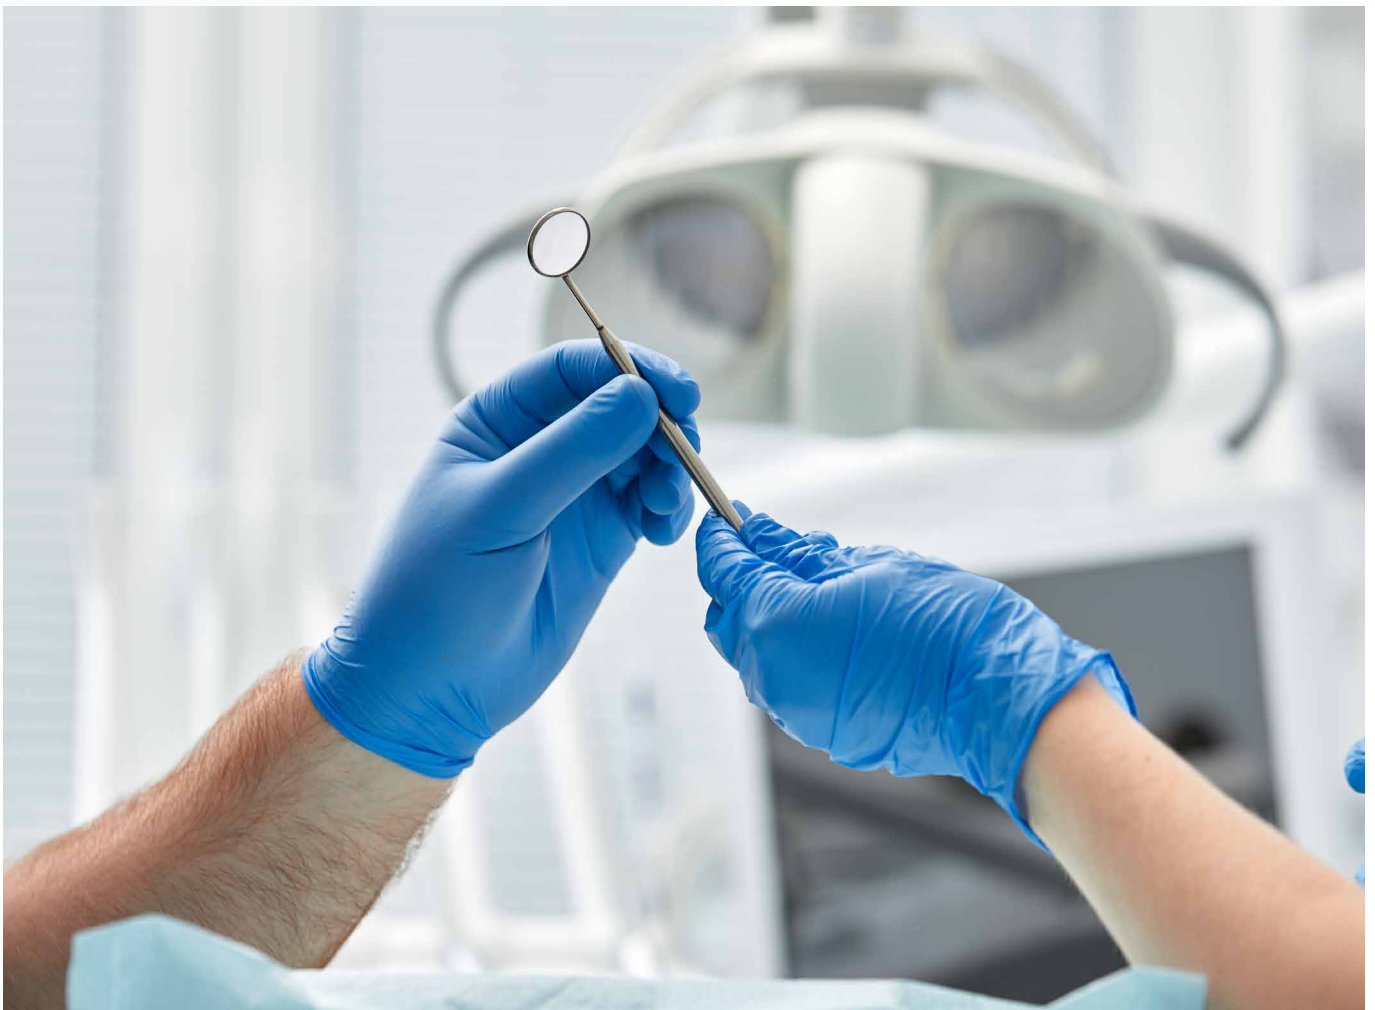

## Endodontics

Our dedicated dentist Dr Asif Gul has a special interest in endodontics and uses a dental microscope along with an on-site CBCT scanner to assist in the most complex non-surgical cases. Dr Asif Gul graduated from the University of Bristol in 2018 with Merits in Oral Surgery and Restorative Dentistry and has extended his skill set by successfully completing Simply Endodontic PG certificate and Contemporary Endodontics.

### Dr Asif Gul accepts referrals for:

- Endodontic services
- Simple and complex cases
- Retreating failed root canal therapy
- Management of perforations

## Oral Surgery

Dr Ben Bushell has over 20 years experience in oral surgery. His calm and friendly chairside manner will put your patients at ease.

We have a friendly team of experienced dentists in oral surgery who can undertake patient cases ranging from crown lengthening, extraction of fractured teeth to the more complex surgical removal of wisdom teeth.

Bewdley Dental Practice is equipped with state of the art technology including a CBCT scanner, which allows us to take a 3D image of the tooth and surrounding anatomy so that your treatment can be planned as accurately as possible.

## Restorative Cases

Our dentists have a passion for restoring smiles and helping patients to regain lost confidence but more importantly, regain function. Our clinicians have undertaken post graduate education in complex restorative dentistry.

### We are experienced in:

- Smile makeovers
- Full mouth rehabilitation
- Restoring severe wear cases

## Orthodontics

Our highly skilled orthodontic team offer a range of teeth straightening options and will guide your patient through each treatment available to help them to make the decision that's right for them. You will receive a letter from our treating clinician to keep you informed.

Providing Invisalign and fixed orthodontics, Dr Gurpreet S Nandra has a keen interest in restoration and orthodontics with further education in both. He is also a member of the European Aligner Society and British Orthodontic Society.

- Platinum Invisalign Provider
- Fixed orthodontics
- Adults' and Children's orthodontics
- Fixed retainers

## CBCT Scan / OPG Radiographs

It's easy to refer your patients for radiographs, we are fully digital and a copy of your requested radiograph can be emailed across to you.

- CBCT full mouth or sectional scans
- Full mouth OPG
- Intraoral scanning

We have two digital Intraoral scanners - the Itero & Carestream, should you wish to refer a patient for helping to plan your own cases. These files can be sent directly to you.
